

Pro Ornamental 14-18-12

DURATION

ENHANCED

Premium Ornamental Fertilizer & Plant Starter

Coverage: 3,500 square feet

Pro Ornamental is a carefully formulated uniform blend that includes a full range of major, macro and minor nutrients to nurture healthy flowering and foliage plants. Professional gardeners can expect rich foliage color and long lasting vibrant blooms.

Over 55% of the Nitrogen is controlled release from **Duration™ Type II and Nitro form**, that when combined with the other plant nutrients included in this product will provide a nice gentle feeding promoting strong root development and microbial activity in the soil.

Complete and balanced, **Pro Ornamental** fits high quality turf management programs too! It is the ideal starter fertilizer, functions as a tonic or booster when turf is struggling, speeds aerification healing, gets renovated thatch up and growing healthy. Contains non-staining Iron.

Pro Ornamental provides the professional turf and ornamental manager with a broad use, integrated management tool.

As Starter - Planting, seeding, hydroseeding, sodding to speed establishment.

Maintaining: Optimum nutrient levels, flowering enhancement, injury recovery.

Caution: Plant nutrients can cause staining. Even though this product contains a non-staining Iron, it should be swept off concrete immediately after application and prior to rain or irrigation.

Derived From: Ammonium Sulfate, Ammonium Phosphate, Potassium Chloride, Potassium Magnesium Sulfate, Ureaform, Polymer Coated Urea, Dolomite, Calcium and Sodium Borate, Copper Oxide, Iron Oxide and Sucrate, Manganese Oxide and Zinc Oxide.
* 4.0% Coated Slow Release Nitrogen From Polymer Coated Urea.

Suggested Application Timing/Rate: For average soils, apply 1 - 1.5 lbs per 100 sq.ft., twice yearly for flowering ornamentals, three times for foliar or ground cover plantings. Close plant spacings may require higher amounts. Apply to soils that are moist through the root zone. Wash off foliage, water in lightly.

For newly seeded turf, apply 15 to 20 lbs/1000 sq. ft. immediately after seeding. For new sod, apply 10 lbs/1000 sq.ft. under and 5-10 lbs/1000 sq.ft. over the sod and water well. **Pro Ornamental** also works well on established turf with low Phosphorus readings.

Directions: Apply the amount of fertilizer prescribed evenly and uniformly. Irrigate the treated area following application. Generally, the prescribed application will be at the medium rate. Special conditions or situations might dictate the high or low rate. Applicator judgment and experience should be used with this and all other fertilizer products.
